

THE GREAT MIGRATION SAFARI AND BEACH HOLIDAY

Highlights:

This is a tailor made flying Safari to the Maasai Mara the location of many spectacular wildlife documentaries. The Maasai Mara is an area that defies description: undoubtedly the spectacular migration of Wildebeest and Zebra searching for lush grazing following the rains, stalked by the omnipresent predators, is one of the world's greatest wildlife marvels. But the migration is by no means the only feature – this fascinating eco-system is home to enormous herds of plains game, the Big Cats and Elephant as well as colourful birds, small game, riverine wildlife and stunning scenery.

You will be staying at two different camps in contrasting areas of the Maasai Mara ecosystem.

Our first three nights are spent at a charming little Bushcamp in the Mara North Conservancy which is adjacent to the unfenced reserve. Here we can enjoy guided walks, night drives and going off road in search of more elusive animals and better photographic opportunities as well twice daily 4x4 game drives in specially adapted safari vehicles.

We then transfer on a game drive transfer by road to the world famous Little Governors Camp located beside a waterhole close to the Mara River in a particularly rich area of the Mara eco

system. This camp is in a great location for close to the main river crossing points for the migrating wildebeest.

The final part of your holiday will be spent on an idyllic tropical beach on Kenya's South Coast at a smaller boutique hotel in a quiet area but with a full range of facilities including a Gymnasium and water sports centre for the more active client.

Day 1

You will be met off your early morning flight at Jomo Kenyatta International Airport and transferred to Wilson Airport for your shared scheduled charter flight to the Maasai Mara.

You will be met off the flight and transferred to Elephant Pepper camp which will be your base for the next three nights on a fully inclusive basis including all meals, locally branded beers, soft drinks, spirits and house wines, laundry, parks fees and all scheduled game activities.

ELEPHANT PEPPER CAMP

Leave the modern world behind, return to the traditional bush safari camp: starlit nights, campfire tales and hurricane lamps. Elephant Pepper Camp is a step back in time but with modern comforts: evenings by the campfire and dinner under the stars are a special feature of this tented camp.

This is an original bush camp, eco-friendly, committed to finding a way of life that does not harm the wilderness, and revenue from the camp goes back to the local community. The homely atmosphere of this camp is part of its charm. Clients can relax with nature, no generators, no vehicles passing, no permanent structures jarring the skyline, just the sights and sounds of the bush all around.

The camp nestles in the shade of a natural forest overlooking the Mara plains. It has just eight large light canvas tents with en-suite dressing rooms, safari showers filled with hot water on request and flush toilets.

Day 4

You will transfer by road to the National Reserve on a game drive transfer. Your accommodation will be at Little Governors Camp which will be your base for the next three nights on a full board basis including all meals, laundry, parks fees and all scheduled game activities including up to three activities per day.

LITTLE GOVERNORS CAMP

Little Governors' Camp is situated at the heart of one of the most game rich areas of the Maasai Mara National Reserve. It is set on the Musiara Marshlands, which are watered by the Mara River, the area having traditionally been reserved for Kenya's colonial Governors. The area surrounding Little Governors' Camp is home to substantial herds of elephants, hippos and buffalos whilst also providing home for the herds of migrating zebra and wildebeest. The nearby plains are the classical image of savannah Africa, dotted with acacia trees and fringed by the inspiring Siria escarpment

Little Governors' Camp consists of 17 tents spread around the shores of the Musiara waterhole, which acts as the focal point for the site. From the shade of your tent veranda you

can relax and enjoy the views as giraffe, elephant, zebra and warthog pass by. During the evening hippos and elephants graze in the grounds of the camp making the Maasai askari (warden) guiding you back to the tent especially comforting. The gas-lit tents are particularly comfortable and spacious with the shower room being especially well-equipped. Candlelit evening meals are of a high standard from a buffet bar and generally are eaten alfresco with views of the nearby Siara escarpment.

Little Governors' is one of the few camps within the Maasai Mara that provide three game drives every day and being a stones throw away from the Mara River ensures that the action during the migration season (July–October) is a short game drive away. The start of your game drive is an adventure in itself, walking beneath the canopy of indigenous forest trees, two fairly steep sets of steps and a river crossing of your own, by hand-pulled ferry. Not only are grazing animals particularly common in this area but also big cats which are very often found stalking the local plains game. The area Rhino Ridge is also good for spotting one of the Maasai Mara's 20 or so endangered black rhinos.

Sunrise balloon safaris also begin from the camp offering a spectacular way of witnessing the diversity present within the Mara.

Governors camps are famous not only as the place where BBC,s “Big Cat Diary” is filmed but also where the popular film “Out of Africa” was made.
