

# Kenya

Kenya is the original safari destination and only eight hours flying time from Europe with a negligible time difference.

Kenya safari holidays are immensely popular and justifiably so. Kenya has been blessed with amazingly varied and attractive scenery, from pristine white beaches to snow capped mountains, from game covered plains to shimmering deserts, from rich tribal culture to an exotic Swahili influenced coast: A Kenya Safari has it all in abundance. Fortunately the country is large enough to absorb the thousands of tourists who arrive every year and outside the main tourist destinations Kenya will rarely seem crowded.

An excellent air transport infrastructure links the various National Parks and the coast and for this reason many safaris stay for two or three nights in different reserves, taking twice daily game drives in open 4x4 vehicles with the expert guides based at the safari camps.

Many safaris include a stay at one Kenya's palm fringed coral beaches where the snorkelling, fishing, sailing and sunbathing are all excellent.

Kenya is perfect for a romantic honeymoon, special occasion or family adventure holiday.
